

# JOBSITE SAFETY STAFFING

## WORKFORCE SAFETY

## OSHA COMPLIANCE

## COST REDUCTION

SMART Safety Group provides commercial and industrial jobsite safety personnel for short-term, long-term, temp-to-hire and full-time positions. Our nationwide database of highly qualified safety professionals allows us to respond quickly and provide the *right* person with the *right* skills for the *right* job.

SMART staffing professionals are experienced across both Construction and General Industry. We have safety personnel at all levels of knowledge, skill and experience to provide the most rapid and cost-effective solution. When you staff your project with SMART personnel, your company is backed by our entire safety team who provide “coach-in-the-corner” support that ensures all project needs are met and no issues are unresolved.

When personnel staffing is needed, SPEED is the name of the game. Our rapid response and onboarding process maintains your projects productivity levels and prevents schedule delays. Not only are our staffing services highly responsive, but also cost effective. We provide a “turnkey” solution that saves significant time and money by eliminating administrative functions including searching, screening, interviewing, hiring, and onboarding – as well as payroll, taxes and benefits.

SMART’s **Jobsite Safety Staffing** solves your company’s fluctuating personnel needs by providing qualified safety professionals and eliminating the time, cost and frustration associated with temp personnel hiring such as:

- ▶ **Searching, Recruiting, Interviewing, Hiring**
- ▶ **Conducting New Hire Orientation/Onboarding**
- ▶ **Meeting Industry/Project Experience Requirements**
- ▶ **Providing Required Safety Certifications**

Our company has been working with SMART Safety Group for several years. SMART’s flexible and cost-effective safety staffing services has allowed us to maintain a consistently strong safety program that we have been able to quickly scale while rapidly expanding our business.

Having SMART be an integrated part of our team at NPSG has afforded us a level of safety expertise that we would not be able to achieve through direct hiring. I would recommend having SMART as a key component to any growing company’s safety program.

– Tad Selby, CEO  
NPSG Global

Outsourcing your company’s jobsite safety staffing to SMART Safety Group delivers three key benefits including: (1) rapid placement, (2) qualified talent, and (3) cost-savings. We do all the “heavy lifting” in meeting your jobsite staffing needs.

Contact us to learn more about SMART Safety Group. We can manage all of your company’s jobsite safety staffing needs that let you focus on your core business – **and bottom line.**
