

SAFETY TRAINING

A strong safety culture starts with a well-trained workforce. SMART Safety delivers comprehensive health and safety training designed to meet OSHA standards, fulfill contractual requirements, and improve safety awareness across your organization. Our courses equip employees with the knowledge and skills to reduce incidents, maintain compliance, and create a safer, more productive workplace.

TRAINING HIGHLIGHTS

- **OSHA Compliance** - Courses aligned with the latest regulations and industry best practices.
- **Specialized Programs** - Silica safety, excavating & trenching, confined space, and electrical safety.
- **Equipment Qualification** - Forklift, scissor lift, and other machinery operation training.
- **Emergency Preparedness** - First Aid/AED/CPR certification and active shooter response.
- **Safe Driving Skills** - Defensive driving for work-related transportation safety.

-  **Safety Management**

-  **Safety Staffing**

-  **Safety Training**

- **Bilingual Instruction** - English and Spanish training options available.
- **Certification & Documentation** - Proper recordkeeping for training completion and renewals.
- **Behavioral Impact** - Improves on-the-job safety habits, reducing lost time and workers' compensation claims.

THE SIGNIFICANCE OF REGULATORY COMPLIANCE AND WORKPLACE SAFETY

Adhering to OSHA standards is critical for not only meeting legal obligations but also for creating a robust safety culture that protects your most valuable assets: your employees. Non-compliance can lead to serious repercussions, including hefty fines, legal liability, and, most importantly, preventable injuries. Prioritizing safety in the workplace not only protects your team but also boosts overall morale and trust within your organization.

Furthermore, a well-structured Safety Management Program incorporates critical elements such as digital field records for training certifications, regular safety audits, continuous safety training, and effective incident response strategies. These components help ensure that your workforce is adequately trained and prepared to meet safety challenges head-on.

By partnering with SMART Safety, you safeguard your People, Property, and Profits through our expert guidance, training, and leadership on all health and safety matters. Our commitment to your safety needs extends 24/7/365, providing you with the ongoing support required for a safe and compliant workplace.

Choose SMART Safety for a safer, more efficient future in your organization.

**SMART World – Your Cloud
Compliance Technology
Solution.**
